

5 ml Syringe (Screw off plunger cap) and Aluminium syringe puller

5 ml syringe and Aluminium syringe puller

These two products when put together make fuel sampling from glass jars, buckets and Aljac Jar SWD housing easy. The reason for this is our 5 ml Syringe has a screw off plunger cap, which then screws directly to the Aluminium Syringe puller.

QC-020
5 ml Syringe

\$25.00 Ex. GST

QC-019
Aluminium syringe puller

\$118.50 Ex. GST

QC-021
SWD Capsules
box of 80
